Section A (20 marks)

1. A teacher brought the following materials to a form four class:
Distilled water, dry soil sample and salinity meter. Describe a **procedure** that should be followed to determine the salinity of the soil sample.

(10 marks)

2. Imagine that a farmer grew maize on one hectare of land and applied different fertiliser levels seen in the table below:

Land (ha)	**Fertiliser input (bags)**	**Maize yield (bags)**	**Marginal output**
1	0	2	-
1	1	3	1
1	2	5	2
1	3	8	-
1	4	12	4
1	5	15	3
1	6	17	2
1	8	18	1
1	9	18	0
1	10	17	-
1	11	15	-2

a. Plot a graph of maize yield against fertiliser input. *(Use the graph paper provided)* **(6 marks)**

b. What is the marginal output when fertiliser input level is 3 and 10 respectively?

   i. 3_____ **(1 mark)**

ii. 10_____ **(1 mark)**

c. How many bags of fertilisers should the farmer apply to get maximum profits?

_____ **(1 mark)**

d. What economic principles is being illustrated in the graph?

_____ **(1 mark)**

SECTION B 20 MARKS

3. You are provided with samples labeled **K, L and M.**

a. Identify specimen K

_____

___(1 mark)

b. Name the sample that can be an additives feed to livestock

_____

___(1mark)

c. What is the importance of adding specimen M to soil.

_____

_ (1 mark)

d. Name one way of propagating specimen L.

_____

__ (1 mark)

e. Give two disadvantages of type of propagation in which specimen L undergo.

_____

_____

_____

_____

_____(2 marks)

f. Name the degree of elasticity of demand in which specimen K belong

_____

___ (1 mark)

g. Sketch the graph of degree of elasticity of demand in which specimen k belong (3 marks)

2. You are provided with t**wo** specimens labeled **X** and **Y**. Use them to answer questions that follow.

   Procedure

Using a knife or razor blade, cut a cross-section of specimen **X**.

a. (i). Draw the cross-section of specimen **X** and label any **two** parts.

(3 marks)

(ii). Mention the vegetative planting material for specimen X.

_____ **(1 mark)**

(ii) State any **two** disadvantages of using the vegetative planting material mentioned in **3a (ii).**

_____

_____

(2 marks)

b. (i) Explain any **one** way in which specimen Y helps in mitigating effects of climate change.

_____

_____

(2 marks)

(ii) Name any **two** nutrients beef cattle obtain from specimen **Y**.

_____

_____

(2 marks)
