SECTION A. STRUCTURED QUESTIONS (60 marks)

Answer all question in the spaces provided.

QUESTIONS

1. **Figure 1** below is a diagram showing a breeding system of in livestock. Use it to answer questions that follow:

Daughter X Father

a) Describe the livestock breeding system represented the diagram above

_____

_____

_____ 2 marks

b) Explain any one advantage of the breeding system represented in the diagram above

_____

_____

_____ 2 marks

c) State any two characteristics of livestock to be selected for breeding.

_____ 1 mark

_____ 1 mark

2. a) state any two economic importance of fruits.

_____ 1 mark

_____ 1 mark

b) **Figure 2** below shows a diagram of a mango pest. Use it to answer questions that follow:

i) Identify the pest

_____ 1 mark

ii) Explain any one damage caused by the pest on mangoes

_____

_____

_____ 2 marks

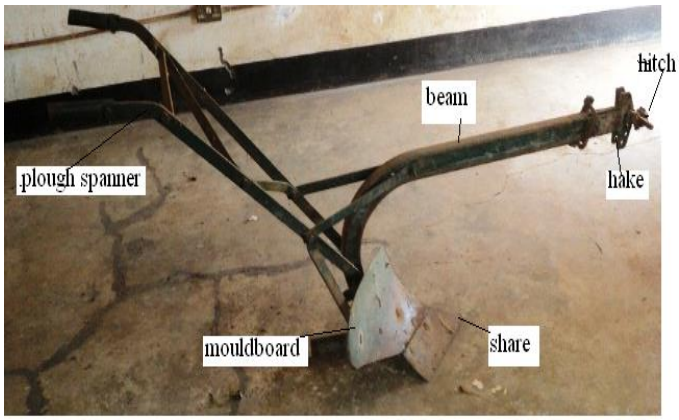
iii) Explain any one way in which the pest can be controlled

_____

_____

_____ 2 marks

3. **Figure 3** below is a diagram showing a farm implement. Use it to answer questions that follow:



a) Describe the source of power for the farm implement

_____

_____

_____ 2 marks

b) Describe any one limitation of the source of power

_____

_____

_____ 2 marks

c) State two ways of improving output from the source of farm power

_____
_____ 1 mark

_____
_____ 1 mark

4a) State any two factors which may affect the seed rate of pasture

_____
_____ 1 mark

_____
_____ 1 mark

b) A farmer planted buffel grass using the information below:

- Seed size 200 000 seeds per kg
- Germination 80%
- Purity 90%
- Expected plant population 800 000 plants per hectare

Calculate the seed rate for buffel grass. Show your working.

3 marks

c) Explain any one importance of pelleting in pasture production.

_____
_____
_____ 2 marks

5**. Figure 4** below shows a human activity which causes climate change. Use it to answer questions that follow:

a) Describe how the human activity above causes climate change

_____

_____

_____ 2 marks

b) Explain any one effects of climate change on agricultural production

_____

_____

_____ 2 marks

c) Explain any one measure of mitigating climate change.

_____

_____

_____ 2 marks

6. a) Classify the following vegetables into indigenous and exotic .

Bonongwe, **cabbage**, **tomatoes**, **mustard**, **blackjack**.

Indigenous vegetables	Exotic vegetables

5 marks

b) Describe any one husbandry practice in vegetable growing.

_____

_____

_____ 2 marks

_____

_____

_____ 2 marks

c) Describe any one way of controlling soil degradation

_____

_____

_____ 2 marks

8. a) Explain any one cause of gender bias in agricultural technology

_____

_____

_____ 2 marks

b) State any two effects of gender bias in agricultural technology

_____

_____ 1 mark

_____

_____ 1 mark

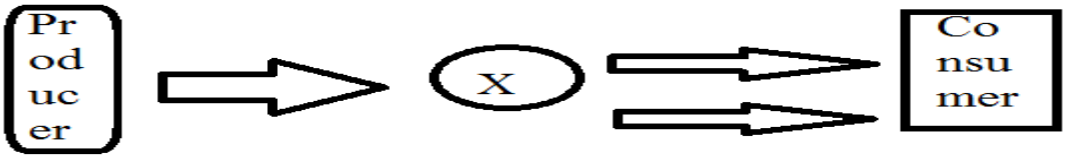
c) Describe any one way of dealing with gender bias in agricultural technology.

_____

_____

_____ 2 marks

9. **Figure 5** below shows a marketing channel. Use it to answer questions that follow:



a) Identify the marketing channel

_____ 1 mark

b) Explain any one role played by **X** in the marketing of agricultural produce

_____

_____

_____ 2 marks

c) Describe any one effect of population distribution of a place affects the flow of agricultural commodities

_____

_____

_____ 2 marks

10. a) Describe one way of conserving pastures for future use

_____

_____

_____ 2 marks

b) Describe any one way in which each of the following factors influence the quality of conserved pasture.

i. Presence of foreign materials

_____

_____

_____ 2 marks

ii. Leafiness of pasture

_____

_____

_____ 2 marks

SECTION B. (40 marks) Essay Questions.

Write your answer in essay form in the spaces provided.

Each question carries a maximum of 10 marks

11. Explain any five importance of agricultural development agencies to a growing population in Malawi.

10 marks

12. Describe how soil pH can be tested using litmus paper. In your description include **materials used**, **procedure**, **expected results** and **conclusion**.

10 marks

13. Explain any five ways in which improved farming technologies can increase food security

10 marks

14. Describe the process of reproduction in cattle

10 marks
