Student Name:_____

M012/I

CENTRAL EAST EDUCATION DIVISION

2025 MOCK EXAMINATION
AGRICULTURE

Subject Number. M012/I

Tuesday, 25 March

Time Allowed: 2 Hours

08:00 – 10:00 am

Paper I

(100 Marks)

Instructions

1. **This paper contains 12 printed pages. Please check.**
2. This paper has two sections; **A** and **B.** Section A has 10 (ten) questions and section B has 3 (three) questions.
3. Answer **all** questions in the spaces provided.
4. Write your name on **all** pages.
5. In the table provided on this page **tick** against the question number you have answered.
6. At the end of the examination, hand in your paper to the invigilator.

Section A: (70 Marks)

Answer all questions in this section

1. a. State any **two** reasons for observing safety measures when using farm machinery

_____

_____

(2 marks)

b. Mention any **two** factors that affect soil temperature

_____

_____

(2 marks)

c. Explain any **two** effects of ticks on cattle production

_____

_____

_____

_____

_____

_____

(4 marks)

2. a. State any **two** ways of dealing with risks and uncertainties on the farm

_____

_____

(2 marks)

b. State the **two** types of concentrates for feeding livestock

_____

_____

(2 marks)

Student name _____

c. Explain any **two** factors to consider when choosing a site for mushroom production

_____

_____

_____

_____

_____

(4 marks)

3. Explain any **one** advantage of propagating plants using vegetative planting materials

_____

_____

_____

(2 marks)

b. Give any **two** reasons for achieving uniformity in beans production

_____

_____

_____

(2 marks)

c. Describe any **two** methods of crop improvement

_____

_____

_____

_____

_____

_____

(4 marks)

Student name _____

4. a. State any **two** examples of succulent roughages for goats

_____

_____

(2 marks)

b. Explain any **one** reason for considering each of the following factors when constructing a goat house

(i). Size of the house

_____

_____

_____

(2 marks)

(ii). Ventilation

_____

_____

_____

(2 marks)

5. a. Explain any **one** way in which growing of pasture controls soil degradation

_____

_____

(2 marks)

b. Explain any **one** difference between monocropping and mixed cropping in terms of;

(i). Capital requirements

_____

_____

_____

(2 marks)

(ii). Use of farm machinery

_____

_____

_____

(2 marks)

6. a. A farmer dug open ditches to drain water from her Dambo land

(i). Identify the type of land drainage used by the farmer

_____

(1 mark)

(ii). Give any **two** disadvantages of the drainage system used by the farmer

_____

_____

_____

_____

(2 marks)

(iii). Explain any **one** way in which drainage of the water from the Dambo land can promote vegetable production

_____

_____

_____

(2 marks)

b. Give any **one** way in which knowledge of heat in livestock is important to farmers

_____

_____

(1 mark)

Student name _____

7. a. State any **two** factors that limit smallholder farmers in selecting appropriate types of machines for their farm operations

_____

_____

(2 marks)

b. Explain any **one** way in which each of the following improved farming technologies promote food security

(i). Irrigation technology

_____

_____

_____

(2 marks)

(ii). Livestock breeding technology

_____

_____

_____

(2 marks)

8. a. Mention any **two** advantages of each of the following sources of farm power

(i). Solar power

_____

_____

(2 marks)

(ii). Wind power

_____

_____

(2 marks)

Student name _____

b. Explain any **one** way in which provision of education deals with gender bias in agricultural technology

_____

_____

_____

(2 marks)

c. Explain any **two** management practices of mushroom fruiting

_____

_____

_____

_____

_____

_____

(4 marks)

9. a. Explain **one** reason for considering each of the following factors when feeding livestock

(i). Purpose for keeping the animal

_____

_____

_____

(2 marks)

(ii). Quality of the feed

_____

_____

_____

(2 marks)

b. A farmer observed the following signs of attack of mangoes in a Mango orchard.

- Black substance on leaves
- Premature ripening of fruits

(i). Name the disease that attacked the Mangoes

_____

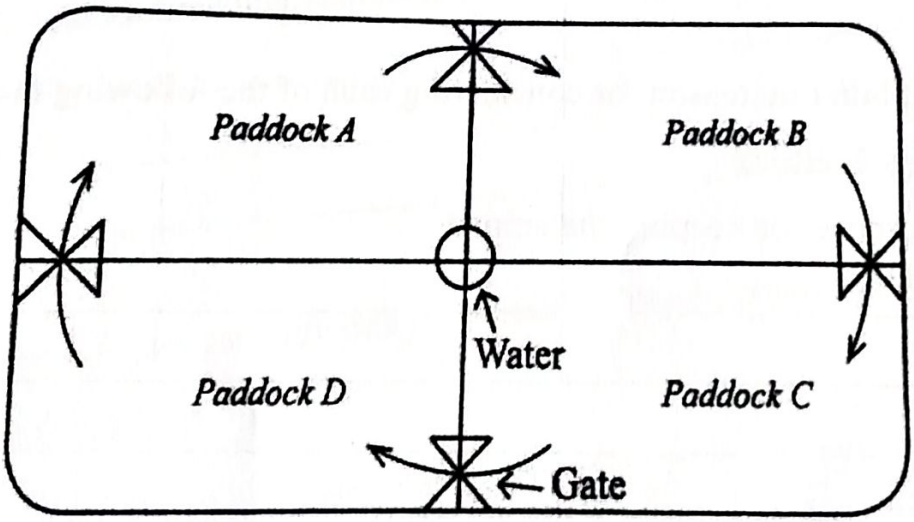
(1 mark)

(ii). State any **one** way of controlling the disease in question **9b (i)**

_____

(1 mark)

10.a. Figure below shows a livestock grazing system.



(i). Identify the grazing system

_____

(1 mark)

Student name _____

(ii). Explain any **one** way in which the grazing system in question **10a (i)** is important in pasture management

_____

_____

_____

(2 marks)

b. Calculate the seedrate of a legume pasture species with the following information

- seed size = 200,000 seeds/kg
- purity = 90%
- germination percentage = 80%
- Expected plant population = 1,152,000

(3 marks)

Student name _____

Section B (30 Marks)

Answer all the three questions in this section

11.Explain any **five** control measures of bacterial diseases of cattle

(10 marks)

Student name _____

12. Explain any **five** ways of improving trading of agricultural commodities at national level

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

(10 marks)

Student name _____

13.A certain farming community which keeps **local** and **exotic** breeds of cattle experiences drought and low agricultural production. Well-wishers have therefore given the community maize and *Gliricidia sepium* for the 2025/26 growing season.

Explain any **five** ways in which the community can deal with the problems.
